“Beware the ides of March.” The phrase popularized in the play by William Shakespeare is uttered by the soothsayer as a warning to Julius Caesar of his impending assassination. If you are unfamiliar with the play (you should read it!), the date refers to March 15, a day Romans considered as a deadline for settling bets. Luckily, this year it falls on a weekend right before spring break. Although we should not dread this time of year, we must not forget that often it is a time when deadlines begin to loom with midterm tests and papers that need to be finished. If you have not done so, it is a good time to start planning for the classes you will be taking next semester, finishing your academic work, and completing anything that is due. Enjoy your break and the coming of spring (which around here probably starts sometime in June), but also use the time to get organized and focused on completing the academic year. Whether you are continuing with us next year or moving on to new adventures, plan ahead – meet with your advisors, get your paperwork submitted, check on your financial aid, talk to career services, or consult with our transfer counselors. We do not need to dread the future if we plan for it!

Also, if you are struggling in any of your classes, it is not too late to ask for help. Talk to your professors and academic support services. Our goal as a college is to ensure your success and we will continue to work to the best of our abilities to provide you with all of the resources and support you need to be successful at QCC. As you strive for success, we, too, will continue to strive to better serve you and ensure that you are successful. Working together, we can achieve quite a bit as long as we remain steadfast in our fierce determination, see each challenge as an opportunity, and know that together we can accomplish anything!

Edible Mind: A Road to Redemption

By Johnathan Patricio

I originally wanted to write an article on how the opioid epidemic has impacted our society with all kinds of fancy interviews and flowery words. However, after much thought, I realized I would have more of an effect if I just kept it real and was able to share my own experience in hoping that it may help someone who is struggling. Whether it be their own personal struggle or a battle they are fighting from the sidelines watching their loved ones self-destruct, drug addiction is like a 3-D equation that cannot be solved with traditional mathematical analysis. The opioid epidemic affects just about every single American in our country, one way or another. I can state several statistics and bore you to death with numbers and opinions that you would forget shortly after reading this article. I feel my approach will have a profound impact on the ones who need to hear this most.

As a child I excelled in school and had a vision for the future. My childhood dream was to be a doctor. I was well-liked and had many friends. There was always some tension in my home life however, as I’ve gotten older I realize it may not have been much different than most families. Throughout high school I played sports and excelled there also. I always felt like something was fundamentally off though. The older I got the more uneasy I felt and paired with several family tragedies, I was desperately seeking a sense of ease and comfort. Innocently enough I found that ease in marijuana until I was introduced to OxyContin. This was the early 2000’s when overprescribing of pain meds was running rampant. Opioids were marketed as the cure all medication with zero risk for addiction and it was prescribed fairly loosely. I remember at that point in time, the streets in just about every city were flooded with OxyContin.

Looking back, it really was insane. As time progressed, so did my tolerance and it happened fairly quickly. I was hooked from the beginning, doing upwards of 640mgs a day. To put that into perspective for you, I started off with only 5mgs and within months I was up to nearly 650mgs just so I wouldn’t be sick from withdrawal. It was a remarkable evolution from start to finish. I was willing to do just about anything so I wouldn’t go without. I went from an honor student junior year of high school to a full blown addict that spiraled into a life of misery, pain, isolation and feelings of wanting to die.

After a short jail sentence for crimes committed to get money to feed my addiction, I was stipulated to a halfway house. The system in America is indisputably flawed. The system is rigged; it’s a money making enterprise. From pharmaceuticals to street drugs, the powers that be are making money on both ends of the spectrum.
The Open Door

The Open Door is the student newspaper of Quinsigamond Community College and is distributed once a month. Students are encouraged to participate in its publication through the submission of articles, article ideas and actual production work.

If you are interested in working on The Open Door, please see Pat Bisha-Valencia, advisor. The office is located in the Fuller Student Center in Room 2F. Come visit us, or email opendoor@qcc.mass.edu or phone 508-854-4285.

The next issue of The Open Door will be on stands April 4th
As I dance in my tears,
I begin to drown,
As I grasp for air,
I suffocate

These drops are red,
Like a velvet rose,
They are full of bliss
Painful

I continue to flow,
In rhythm I sway,
Aeuphoric paradise,
Inconceivable

Slowly deteriorating,
Quickly decomposing,
The metronome fades,
Shifted

As I dance in my tears,
I begin to float
I clutch for air
Breathe

These drops are blue,
Like the epoch sky,
They are heavenly like,
Serene

I continueto breeze,
In the wind I blow
Elated utopia,
Conceivable

Slowly rejoicing,
Quickly triumphant,
The harmony ensures,
Life

---

QCC Police Informer

“See Something, Say Something”

Deputy Chief Rodriguez

Getting involved in the community’s safety and security is everyone’s business, not just campus police. If you “see something, say something” is a great idea. It’s about civic duty and a mindset. If a citizen uses common sense of what they perceive to have seen, then that person is not wasting hours or resources on a false alarm. So calling the police about a “suspicious activity” is being an active partner in the community.

So how do you determine if you are using common sense or simply unsure of what you’ve seen? The answer is to decide that if the behavior that you witnessed is out of place and that it would arouse suspicion in a reasonable person then you should report it.

Many cities and towns today have Neighborhood Watch Meetings where local police will host a gathering of those in the neighborhood. In the neighborhood where QCC sits, the Greendale Library holds a meeting every month. There, citizens are able to voice concerns over safety and security but also talk about suspicious activities. Encouraged to call when the activity happens is best, but even getting the information at one of these meetings can be helpful.

Keep in mind that being suspicious isn’t always an act you see. It can be something else, like a broken light, a flat tire, a smashed window, a bent door handle or even a smashed mirror. The list can be endless when “seeing something, saying something.”

At QCC, you can call 508-854-4221 or X4444 to report a suspicious activity.
Edible Mind: A Road to Redemption

Continued from Page 1

Whether you are buying the product or getting help in a program it’s a win/win for them. These powers are making money hand over fist on getting the human race at large hooked on one of the most addictive substances on the face of this planet.

Well, fast forwarding a bit, after 38 overdoses, 5+ years incarcerated, 3 years of chronic homelessness, countless visits to shelters, psych wards and rehabilitation facilities, I just couldn’t seem to shake this addiction. Now, there are many debates on whether addiction is a choice or a disease. This is not an article on that, this is my experience and in my experience it started off as a choice, until I no longer had the power of choice. As I said earlier, addiction is a 3-D equation, it’s the collective sum of a lot of factors. However, if it were simply a matter of choice then someone tell me why we lost over half a million people to overdose from 2010 to 2019. It is the number one cause of death in people under 50. Drugs have been around since the beginning of time, but only now are we seeing people dying in mass numbers. Maybe the problem is not the drugs themselves. Perhaps the problem is the culture we live in.

Well, during my last incarceration, something profound happened. I had a vital spiritual experience and I have not had the desire to use ever again. My perception of life has gone from always bad to mostly good. It did take work but I was willing to really reevaluate my life and I was blessed with a second chance or should I say a 39th chance. The reason why I decided to share my story for the student body to read is simple. I want people to understand that there is hope. Addiction doesn’t have to be a death sentence nor should it carry a stigma. When you shame the addict it hinders their chance of recovery.

Johann Eduard Hari is a Swiss-British writer and journalist who has a passion for understanding addiction, he is constantly saying that it’s possible to love an addict into recovery but it needs to be collectively as a society. I couldn’t agree with him more. If negative consequences, like prisons and jails worked, then we wouldn’t have a single addict in the world. I don’t know what the solution would be to end this epidemic however, I know that the approach our country is taking is not the right one. I don’t express that through reading statistics from a book, rather I lived it first hand from 16 to 31 yrs. old. Fifteen years of research has led me back to college and my goal of being a doctor is insight again. The immense gratitude I feel on a daily basis is what pushes me to live my life on an altruistic plane. I faced those trials and tribulations so I can come out the other side the best possible version of myself so I could be of service to others who are struggling.

If anyone is struggling with an addiction I’m here to tell you there is hope and things will get better. The first step is reaching out and asking for help. My hand will be forever extended to anyone that is struggling with adversity. If this article can help at least one single person, then it is worth sharing such a personal and private piece of my life.

Substance Abuse Resources

In Worcester MA:

*Open AA meeting @QCC Thursday nights 5:30pm in 107A

*Washburn House (specific to opioid dependence) https://www.washburnhouse.com/

*Adcare Hospital for adults; they have inpatient and outpatient programs https://adcare.com/massachusetts/worcester/

*You Inc for young people aged 11-18 https://www.youinc.org/services/counseling/substance-use-services/

*Center for Recovery https://center-for-recovery-worcesterma.business.site/

In Southbridge MA:

*Spectrum Health Systems https://www.spectrumhealthsystems.org/locations/southbridge-ma/150

*Harrington Health Care https://www.harringtonhospital.org/locations/behavioral-health-services/

Students are encouraged to ask for help and will be assessed and provided support.

IT’S NEVER TOO LATE TO START THE YEAR HEALTHY
Healthy Goal Setting Tips:
• Start small- don’t overwork yourself
• Be specific- write it all down
• Write down checkpoints and keep them posted somewhere you’ll always see them
• Reward yourself for each step accomplished.
• Find friends to work out with that will encourage your.

Remember the Great feeling you have after you exercise……

BENEFITS OF EXERCISE
- Reduces & Relieves Stress
- Reduces Cholesterol
- Prevents Osteoporosis
- Helps Prevent Coronary Heart Disease (which is the #1 death rate)
- Weight Maintenance
- Firm & Tone your Body
- Meet New People

Ultimately….You Will Have More ENERGY

Fitness Program Classes are offered in the Athletic Center. Stop by or call the Athletic Center for details.

19 Things You Might Not Know Were Invented by Women

Some that save time, some that save lives, and a few that make each day a whole lot easier.

Necessity isn’t the only mother of invention. Though it wasn’t always easy to get patents or the credit they deserved, women are responsible for many items we use today.

1. The Paper Bag
America got a brand new paper bag when cotton mill worker Margaret Knight invented a machine to make them with a flat square bottom in 1868. (Paper bags originally looked more like envelopes.) A man named Charles Annan saw her design and tried to patent the idea first. Knight filed a lawsuit and won the patent fair and square in 1871.

2. Kevlar
Lightweight, high-tensile Kevlar—five times stronger than steel—will take a bullet for you. DuPont chemist Stephanie Kwolek accidentally invented it while trying to perfect a lighter fiber for car tires and earned a patent in 1966.

3. The Foot-Pedal Trash Can
Lillian Gilbreth improved existing inventions with small, but ingenious, tweaks. In the early 1900s, she designed the shelves inside refrigerator doors, made the can opener easier to use, and tidied up cleaning with a foot pedal trash can. Gilbreth is most famous for her pioneering work in efficiency management and ergonomics with her husband, Frank. Two of their 12 children, Frank Jr. and Ernestine Gilbreth, humorously wrote about their home/work collaborations in the book Cheaper by the Dozen.

4. Monopoly
Elizabeth Magie created The Landlord’s Game to spread the economic theory of Georgism—teaching players about the unfairness of land-grabbing, the disadvantages of renting, and the need for a single land value tax on owners. Fun stuff! Magie patented the board game in 1904 and self-published it in 1906. Nearly 30 years later, a man named Charles Darrow rejiggered the board design and message and sold it to Parker Brothers as Monopoly. The company bought Magie’s patent for the original game for $500 and no royalties.

5. Windshield Wipers
Drivers were skeptical when Mary Anderson invented the first manual windshield wipers in 1903. They thought it was safer to drive with rain and snow obscuring the road than to pull a lever to clear it. (Another woman inventor, Charlotte Bridgwood, invented an automatic version with an electric roller in 1917. It didn’t take off, either.) But by the time Anderson’s patent expired in 1920, windshield wipers were cleaning up. Cadillac was the first to include them in every car model, and other companies soon followed.

6. Disposable Diapers
Marion Donovan didn’t take all the mess out of diaper changing when she patented the waterproof “Boater” in 1951. But she changed parenting—and well, babies—forever. The waterproof diaper cover, originally made with a shower curtain, was first sold at Saks Fifth Avenue. Donovan sold the patent to the Keko Corporation for $1 million and then created an entirely disposable model a few years later. Pampers was born in 1961.

7. The Dishwasher
Patented in 1886, the first dishwasher combined high water pressure, a wheel, a boiler, and a wire rack like the ones still used for dish drying. Inventor Josephine Cochrane never used it herself, but it made life easier for her servants.

8. Liquid Paper
In the days before the delete key, secretary Bette Nesmith Graham secretly used white tempera paint to cover up her typing errors. She spent years perfecting the formula in her kitchen before patenting Liquid Paper in 1958. Gillette bought her company in 1979 for $47.5 million. And that’s no typo.

9. Alphabet Blocks
Children don’t read books by anti-suffrage author Adeline D.T. Whitney these days—and that’s probably for the better. But the wooden blocks she patented in 1882 still help them learn their ABCs.

10. The Apgar Score
Life is a series of tests, starting with the Apgar, named after obstetrical anesthesiologist Dr. Virginia Apgar. In 1952, she began testing newborns one minute and five minutes after birth to determine if they needed immediate care. About 10 years later, the medical community made a backronym—an acronym designed...
to fit an existing word—to remember the criteria scored: Appearance, Pulse, Grimace, Activity, and Respiration.

11. Marine Signal Flares
Communication between ships was once limited to colored flags, lanterns, and screaming things like “Thar she blows!” really loudly. Martha Coston didn’t come up with the idea for signal flares all by herself. She found plans in a notebook that belonged to her late husband. The determined widow spent 10 years working with chemists and pyrotechnics experts to make the idea a reality. But she was only named administratrix in the 1859 patent—Mr. Coston got credited as the inventor.

12. The Circular Saw
A weaver named Tabitha Babbitt was the first to suggest that lumber workers use a circular saw instead of the two-man pit saw that only cut when pulled forward. She made a prototype and attached it to her spinning wheel in 1813. Babbitt’s Shaker community didn’t approve of filing a patent, but they took full advantage of the invention.

13. Retractable Dog Leash
New York City dog owner Mary A. Delaney patented the first retractable leading device in 1908. It attached to the collar, keeping pooches under control, while giving them some freedom to roam. Incidentally, someone named R.C. O’Connor patented the first child harness 11 years later. Coincidence? Maybe.

14. Submarine Telescope and Lamp
It’s difficult to find any in-depth information about early inventor Sarah Mather. Her combination telescope and lamp for submarines, patented in 1845, speaks for itself.

15. Folding Cabinet Bed
Sarah E. Goode’s folding cabinet bed didn’t just maximize space in small homes. In 1885, it made her the first African-American woman with a U.S. patent. The fully functional desk could be used by day and then folded down for a good night’s sleep. The Murphy bed came along some 15 years later.

16. The Solar House
Biophysicist Maria Telkes’s place was in the house—the very first 100 percent solar house. In 1947, the Hungarian scientist invented the thermoelectric power generator to provide heat for Dover House, a wedge-shaped structure she conceived with architect Eleanor Raymond. Telkes used Glauber’s salt, the sodium salt of sulfuric acid, to store heat in preparation for sunless days. Dover House survived nearly three Massachusetts winters before the system failed.

17. Scotchgard
Apparently, it takes a stain to fight one. In 1952, 3M chemist Patsy Sherman was perplexed when some fluorochemical rubber spilled on a lab assistant’s shoe and wouldn’t come off. Without changing the color of the shoe, the stain repelled water, oil, and other liquids. Sherman and her co-inventor Samuel Smith called it Scotchgard. And the rest is ... preserving your couch.

18. Invisible Glass
Katharine Blodgett, General Electric’s first female scientist, discovered a way to transfer thin monomolecular coatings to glass and metals in 1935. The result: glass that eliminated glare and distortion, which revolutionized cameras, microscopes, eyeglasses, and more.

19. Computers
Women in computer science have a role model in Grace Hopper. She and Howard Aiken designed Harvard’s Mark I computer, a five-ton, room-sized machine in 1944. Hopper invented the compiler that translated written language into computer code and coined the terms “bug” and “debugging” when she had to remove moths from the device. In 1959, Hopper was part of the team that developed COBOL, one of the first modern programming languages.

March 8th is INTERNATIONAL WOMEN’S DAY

International Women's Day

March 8th is INTERNATIONAL WOMEN'S DAY
Facts and Trivia about the Month of March!

By Tyler Paul Wills

Did you know that the month of March has a lot of great things that happened? When Spring is almost here, that means the smell of fresh flowers is in the air! Some fun and cool things about the month of March that I thought were interesting Facts and Trivia! While there are a lot of more interesting things that have happened in the mouth of March I could write about. Here are some of my favorites I thought I would share with everyone.

- March Quotes: Everyone says “When March comes in like a lion it goes out like a lamb”
- March’s Birthstone is Aquamarine(blue); the flower for the month of March is a Daffodil.
- March is American Dietetic Association National Nutrition Month - American Red Cross Month - Epilepsy’s Awareness Month - Caffeine Awareness Month - Women’s History Month - National House Protection Day - St. Patrick’s Day - National 3.14 day (Pi Day) in almost every school they give out Pie’s to the students to learn about Pi (π) 3.14 and to celebrate and eat pie.
- The name of March comes from a Latin word Martius the first month of the early Roman calendar. I thought that was cool.

Fun Facts

- In 1868 – The Pi Kappa Alpha Fraternity was founded at the University of Virginia.
- In 1899 – Bayer – registered Aspirin as a trademark. Aspirin is considered by many to be the first wonder drug.
- In 1921 – Harry Houndni earned a US Patent (#1,370, 31) for a safety Diver Suit for his underwater magic escape tricks.
- In 1937 – King-Kong (film) – opened at New York’s Radio City Music Hall.
- In 1950 – Silly Putty – was introduced as a toy by Peter Hodgson. It was invented in 1943 by James Wright to make synthetic rubber.
- In 1957 – Julie Andrews – started in Cinderella, on CBS.
- In 1960 – Lucille Ball – filed for divorce from Desi Arnaz, ending their marriage as well as the Lucille Ball – Desi Arnaz Show franchise on CBS.
- In 1975 – People’s Magazine – was published for the first time in the United States as People Weekly.
- In 1990 – Nelson Mandela – was elected deputy President of the African National Congress.
- In 1995 – Yahoo! – was incorporated
- In 1996 – The news revealed that 1 billion households worldwide owned a television set.
- In 1998 – Titanic – became the first film to gross over $1 billion worldwide.

Understanding Your GPA

- GPA, or Grade Point Average, is a number between zero and four representing your average grade.
- Find your GPA by logging into The Q, clicking on "My Academics" > Academic Records > Unofficial Transcript.
- Your "cumulative" (or overall) GPA is shows the average of all the classes you’ve completed. Here’s what it means:

<table>
<thead>
<tr>
<th>If your GPA is this:</th>
<th>Then your average QCC grade is this:</th>
<th>This means...</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.68 – 4.0</td>
<td>A</td>
<td>STELLAR GPA! KEEP UP THE GREAT WORK!</td>
</tr>
<tr>
<td>3.34 – 3.67</td>
<td>B+ / A-</td>
<td>SOLID GPA: HIGHLY RESPECTABLE</td>
</tr>
<tr>
<td>3.01 – 3.33</td>
<td>B / B+</td>
<td>Work on raising that GPA to an even higher level, to open up even more opportunities!</td>
</tr>
<tr>
<td>2.68 – 3.0</td>
<td>B / B</td>
<td>MIDDLE-OF-THE-ROAD GPA</td>
</tr>
<tr>
<td>2.34 – 2.67</td>
<td>C+ / B-</td>
<td>Your Academic Standing is still considered &quot;Good,&quot; but if it drops below 2.0, you’re at risk for many challenges, including not graduating.</td>
</tr>
<tr>
<td>2.01 – 2.33</td>
<td>C / C+</td>

Email: disabilityservices@qcc.mass.edu

Great resume builder!
Registrar's Office

Key Dates and Deadlines for the Spring Semester

- **Progress grades available Friday March 13.** Log onto The Q to view your mid-semester grade. If you are receiving a failing grade talk to your instructor or academic advisor to see if a course withdraw is an option you should consider.

- **Spring Break is the week of March 15-21.** There are no classes this week

- **Registration for returning students opens Monday, March 23 for Summer and Fall 2020.** You have seniority over all new students. Don’t wait to register for the upcoming summer and fall semesters. New student registration opens Monday, April 6.

- **Last day to change to or from an AUDIT is April 10.**

- **Withdrawal period is through April 10.** To withdraw from a class, your instructor or your academic advisor must sign the withdrawal form. After April 10, your professor may grant you the grade of W, but you are no longer entitled to that grade. Your instructor may assign the grade of F. If you are considering withdrawing from a course and receive financial aid, talk to the Financial Aid Office to find out if your package will change due to the withdraw.

- **Monday, April 20 is Patriot’s Day.** The College is closed, no classes will be held

- **Incomplete grades from the Fall and Intersession are due April 24.** If your missing work is not completed by this date the grade turns to an F.

- **Final Week of Classes May 6-12,** during the final week of classes there is a modified class schedule. Check The Q for the Spring Final Exam Schedule or ask your instructor for a detailed class syllabus. Final grades are due on The Q 48 hours after the last class or exam.

- **Commencement is Thursday, May 21 at 1pm at the DCU Center**

**Are you planning on graduating this May?** If so, you should already have received an email to your Qmail from the Registrar’s Office confirming your graduation date, how your name will appear on your diploma and your mailing address. If you have not received an email yet please stop by the Registrar’s Office as soon as possible.

Information about May Commencement will be sent to your Qmail in mid-April. Please continue to check your Qmail for all communication about commencement. Commencement will be held on Thursday, May 21 at 1pm at the DCU Center.
Transfer Services

Springfield Area Colleges Spring EVENT

QUINSIGAMOND COMMUNITY COLLEGE
MARCH 11 (WED)
10 a.m. - 1 p.m.
HLC LOBBY

For more information, please contact: Transfer@qcc.mass.edu

Get quick information and answers to transfer issues like:

• How to pick colleges and majors
• Choosing important QCC courses that will transfer
• How to create a strong academic profile for transfer
• General steps to transferring—deadlines, forms, admissions requirements

*These dates include a workshop during the first hour covering transfer basics:
  • Transfer admissions requirements (with or without completing an associate degree)
  • The transfer application process (including the Common Application)
  • Transfer agreements (MassTransfer & articulation agreements)

QCC Mentoring

Making Connections, Building Community

When you receive a QCC Mentor, you will gain a trusted guide, a personal and professional resource, a connection to the professional world, and a friend.

By participating in the QCC Mentoring program, you will learn ways to raise your GPA, while building connections in the career path of your choice. This is a chance to build your personal and professional network and develop lifelong skills that you can take with you wherever you go.

Mentees will receive training, guidance, resources, and support throughout the program.

QCC Mentoring:

- Builds self-confidence and self-esteem
- Provides motivation
- Delivers vital college/work/life strategies
- Offers support and experience in public speaking/presentations
- Enables students to grow to their full potential

To learn more, please email mentoring@qcc.mass.edu, call 508.854.4573, visit 120A in the Administration Building, or go to www.QCC.edu/mentoring
We are happy to announce a QCC scholarship opportunity. The Olga Lopez-Hill Scholarship honors a current QCC student. Olga Lopez-Hill, graduated from QCC in 1990 and worked at the College for over 20 years advocating for students and inspiring them to continue their efforts to further their education. Ms. Olga Lopez-Hill is a dedicated community leader and role model for those who are willing to work hard to improve their lives.

The scholarship, for $600.00, will be presented at the annual HAEC event on Wednesday, October 14, 2020 at 5:30 p.m. in the QCC Gymnasium. The scholarship is available to QCC students who plan either to continue their education at Quinsigamond or to transfer to another educational institution.

We ask our faculty and staff members to assist us by encouraging worthy students to apply. Letters of support from faculty and staff members may accompany the application but are not the only requirement for submission. Please, let students know that their essay is the most important requirement for the selection process.

To apply, student, you need to submit an essay showing how you feel that your activities and future goals reflect the importance of education, diversity and service to your community. Please limit your response to two pages, and include your contact information (name, address, e-mail, and telephone number) with your submission. (Previous OLH award recipients are not eligible.)

Completed Applications must be received by the end of the day on Wednesday, April 29th, 2020.

Submit your application to dgonzalez@qcc.mass.edu
Learning about the impact of pornography on relationships, sexual violence, and body image.

Sponsored by Psi Beta & Psychology Club Guest Lecture Series, Social Justice Speaker Series, QCC Diversity Caucus and the Title IX Office.

Persons in need of accommodations for this event should contact Liz Woods at 508.854.2791 or lwoods@qcc.mass.edu. (Sorenson video phone: 508.502.7647) on or before Tuesday March 3, 2020.

Dr. Emily Rothman, Professor at Boston University

Tuesday, March 10
12:30 p.m. - 1:45 p.m.
Carberry Gallery (HLC 109B)

Many people are concerned about the impact of pornography on adolescents and young adults. Pornography has changed and what curious youth see today is not the same type of sexual content that their parents saw in magazines in the 1970s or 1980s.

It’s easy to assume that because pornography is different, and easily accessible, the news is all bad. While evidence suggests that pornography viewing is associated with youth dating and sexual violence, there are some subgroups of youth that are more vulnerable to adverse consequences of pornography viewing than others. Moreover, the ideas that pornography is “addictive,” is causing the dissolution of stable relationships, and is bad for girls’ body image are not clearly supported by the majority of the peer-reviewed literature.

In short, the evidence base on pornography is mixed. Based on recent research on teaching adolescents “porn literacy”—there is reason to hope that the current generation of adolescents can develop the skills to navigate sexually explicit media just as they must learn to navigate other media.
ACTIVITIES & EVENTS

The QCC Psi Beta National Honor Society and QCC Psychology Club participates in a number of activities that include:

- Membership Meetings (every other week)
- Guest Lecture Series - includes a variety of topics, such as forensics, cell phone use & cognition, neuroimaging, ECT, diversity and MH care.
- National Research Projects
- Research Presentations
- Community Service

FUNDRAISING

Psi Beta has supported many organizations, including:

- Project Hope
- QCC Food Pantry
- Safe Homes
- YWCA
- Abby's House

- YDU, Inc.
- LOSS Team
- NAMI
- AFSP

ELIGIBILITY REQUIREMENTS:

1. A strong interest in psychology (major in psychology is not required)
2. Completion of 1 psychology course
3. Minimum “B” average in all psychology courses
4. Minimum overall 3.25 GPA
5. Completion of at least 12 credits

To be considered for induction, send the following information to Dr. Clemente at vclemente@qcc.mass.edu by March 6, 2020:

- Name, Address & Phone Number
- QCC ID Number & Qmail Address
- Program/Major & Anticipated Date of Graduation
- Your record will be reviewed for your qualifications, and you will receive a response within a week. Be sure to check your email frequently, as there will be time-sensitive information in the message, if you are accepted for induction.

There is a one-time induction fee of $50 payable to the national organization.

The Open Door Is Sponsoring A Student Photo Contest

Here's your chance to showcase your talent!

Submissions accepted February 10 - March 13

This contest is only open to currently enrolled students.

Submission for Photo Contest
- Submit your photos by email to the photo contest email at: opendoor@qcc.mass.edu
- Files must be no larger than 1.3MB, up to 800x1200 pixels
- Limit two photos per student, whether it's landscape, portrait, still life, etc.
- Students can also submit the above information on a CD drive saved as a JPEG or PDF file(s) format to the Student Life Office in the Fuller Center.
- Please note that while artistic expression is welcome, works expressing anything uncivilized or lewd will be disqualified.

Submissions must include the title of each photo along with your name, phone number, email and student ID number. Photos should be taken within the past 2 years and not been previously published or part of a contest.

Submissions will be available for viewing on The Q.

Judging
- Begins in March. Winners will be notified and announced in April.

Prizes -
1st Prize - 2 Tickets to Student Life Trip
2nd Prize - QCC Sweatshirt
3rd Prize - 2 Movie Tickets to Showcase Cinemas

As a bonus the winning photographs will be displayed on the front page of the Open Door in the April Edition.

Other Information
- If you do not have photoshop, go to Irfanview.com, or gimp.org for a free download to compress photos.
